MI 449 Final

Website Statement

Brian A Toscano

To Cure Boredom! This site is a suggestion box at the click of a button. If you have ever been in a situation where you are simply bored and do not know what to do with your time, this API allows you to get a suggestion as to what to do with your time. Whether you are alone or with your friends they categorize group activities as well as solo activities. However, if you are simply bored, you can also enter the site simply to get a laugh out of our Chuck Norris joke API.

Overall, the site can also help you keep track of the amount of activities you are doing when relating to a specific genre like education, or recreation, even sports. It formulates a graph to track the things that you are doing and at what frequency.
